PRESS RELEASE

ELEGANT RESORTS SEES BOOKINGS SURGE AS VACCINE IS CONFIRMED

Luxury tour operator Elegant Resorts is having its best sales week since the COVID-19 crisis began with a record number of bookings to winter sun destinations, due to a renewed confidence boost following the recent vaccine related announcements.

The Caribbean and the Indian Ocean are leading the way with bookings to St Lucia, Antigua and Barbados, as well as the Maldives, thanks to the recent travel corridor announcements.

Elegant Resorts is seeing a real surge in last minute reservations for the festive period with clients keen to see off 2020 in style; indeed, all holidays booked this week are for travel before April 2021. It is worth noting however that the Maldives and Dubai are very busy for the end of year while the Caribbean still has availability.

Lisa Fitzell, Elegant Resorts' Managing Director commented: "Our clients are desperate to travel again and the recent vaccine news has given them the boost they needed to make this first step. There are some incredibly good deals around at the moment so it is definitely worth making the most of this opportunity".
