## PRESS RELEASE

### Elegant Resorts and Travelife – Working Towards Sustainability

---

As travellers ourselves, we know the power that travel, as an industry and an interest, can hold. And whilst we are always advocates for adventure and believe that your journeys and discoveries should be impactful, it is important that this impact is felt by you and not the planet. Which is why Elegant Resorts is working with Travelife to monitor and manage its environmental affect and support its suppliers on their road to sustainability.

Travelife is a leading training, management and certification initiative for tourism companies committed to reaching sustainability. Encouraging the implementation of sustainable practices that are in line with the Global Sustainable Tourism Council (GSTC) Criteria, Travelife assists with and recognises commitment to sustainable business practices.

The road to achieving the Travelife Sustainability Certification is a thorough three-stage process. As Travelife Engaged, Elegant Resorts has appointed an external Sustainability Co-ordinator in a commitment to our sustainability goals and is already taking large strides towards being a force for good. Our goal is to have these efforts assessed and recognised in order to become a Travelife Partner by the end of 2023; as we progress on this sustainability journey, we will then become recognised as Travelife Certified following an evaluation by an independent auditor.
